# NAAC Accreditation Management System
# NAAC Accreditation Self-Assessment and Scoring Software

Nirmal Integrated Consultancy (Team-NIC) has developed its amazing NAAC Accreditation Management System for NAAC Accreditation Self-Assessment and Scoring.

Team-NIC named this amazing NAAC Accreditation Management System as "NAAC-Accreditation Self-Assessment and Scoring Software" (NASASS) and released it in FREE OF COST Version as well as fully supported Membership Version.

NAAC Accreditation Self-Assessment and Scoring Software (NASASS) helps a NAAC Aspirant University/Autonomous College/Affiliated Institution to self-assess its readiness for NAAC Assessment. This NAAC Accreditation Management System gives a close insight to plausible score of QnM metrics as per NAAC Assessment.

The NAAC Accreditation Self-Assessment and Scoring Software (NASASS) helps collection of data in suitable templates, computation of QnM Metrics for each Key Indicator, Cumulative Scoring against each Criteria, and Cumulative overall Scoring with likely Grading of the institution.

With quantitative assessment available in the NAAC Accreditation Self-Assessment and Scoring Software, the institution can identify the areas of improvement and hereby progress for better scores in NAAC Assessment.

This NAAC Accreditation Management System or NAAC Accreditation Self-Assessment and Scoring Software has been released in two forms. The Software is available as a stand-alone MS-Excel Utility as well as an Online PHP/MySQL based advanced Accreditation Management Software System.

- The Excel utility of NAAC Accreditation Self-Assessment and Scoring Software (NASASS) is capable of:
  o taking inputs as per NAAC templates (some additional fields may be there to support better data-collection and improving preparedness of institution for NAAC Assessment).
  o Validating the provided data through multi-angle multi-view checkpoints and reporting if the validation is Passed or Failed.
  o Easy and Quick to use with Data Validation not restricting the evaluation of QnM Metrics. Even if the institution is not having a complete data but is interested to know its score, the utility does not stop the user to make quick use of it without waiting for complete data. An early and quick view of current strength and areas of improvement can be reported without complete data.
  o Capturing and reusing the data collected for Self-Assessment and Scoring.
  o Getting stored in multiple copies to have track of historic performance and tracking improvements
- The Online PHP/MySQL based of NAAC Accreditation Self-Assessment and Scoring Software (NASASS) is capable of:
  o All strengths of Excel based Utility as mentioned above.
  o Keeping a historic track of Key Indicator, Criteria, and Overall Score
  o Reporting a track of trend for improvement of scores for management review.
  o Protection of Data as we respect your confidentiality and understand the importance of privacy of your information.

NAAC Accreditation Self-Assessment and Scoring Software (NASASS) can be a life save for many institutions. Feel free to connect to us for more information and pricing of the Software.

This NAAC Accreditation Management System or NAAC Accreditation Self-Assessment and Scoring Software (NASASS) released it in FREE OF COST Version as well as fully supported Membership Version.
